SUMMARY

With an impressive 4-year journey as a web developer, I excel in crafting captivating web applications and websites that prioritize user experience. My toolbox boasts a wide range of technologies including HTML, CSS, JavaScript, React, Tailwind CSS, PHP, MySQL, Python, and Django, empowering me to create dynamic and interactive user interfaces with finesse. Leveraging the power of React and the sleek styling of Tailwind CSS, I bring life to digital experiences that captivate users. Additionally, my proficiency in back-end technologies such as PHP, MySQL, Python, and Django ensures seamless server-side functionality and robust database management.

EMPLOYMENT HISTORY

Lead Front-End Developer; Allforms Limited.....Apr 2023-Present

- Spearhead the implementation of automated build and deployment pipelines, optimizing development processes and ensuring efficient project delivery
- Developed user-oriented visuals and features using front-end languages to increase site traffic.
